Lectures on the Theory of the Weak Interaction. The topics discussed are: (1) the experimental basis of the V-A structure of the weak interaction; (2) precision electroweak measurements at the Z resonance; (3) the Goldstone Boson Equivalence Theorem; (4) the Standard Model theory of the Higgs boson; (5) the future program of precision study of the Higgs boson.

Introduction to Theory of Literature. This is a survey of the main trends in twentieth-century literary theory. Lectures will provide background for the readings and explicate them where appropriate, while attempting to develop a coherent overall context that incorporates philosophical and social perspectives on the recurrent questions:...

of the lectures have as their subject the theory of signal analysis or representation, which precedes the statistical theory, both logically and historically. The mathematical theory is followed by a physical theory of signals, in which

Lectures on the Theory of Contracts Lars A. Stole\* First version: September 1993 Current version: September 1999 1 Preface The contours of contract theory as a field are difficult to define. Many would argue that contract theory is a subset of Game Theory which is defined by the notion that one party

There are notes of course of lectures on Field theory aimed at providing the beginner with an introduction to algebraic extensions, algebraic function fields, formally real fields and valuated fields. These lectures were preceded by an elementary course on group theory, vector spaces and ideal theory of rings—especially of Noetherian rings ...

Lecture 1 of Leonard Susskind's Modern Physics concentrating on General Relativity. Recorded September 22, 2008 at Stanford University. This Stanford Continu...

### **Einstein's General Theory of Relativity | Lecture 1**

In 1915 Einstein published an additional theory, called the General Theory of Relativity. This latter theory deals with the extension of the Special Theory to the case of the law of gravitation; we shall not discuss the General Theory here.
