#### **Samurai Of Japan A Chronology**

Updated July 23, 2018. Samurai were a class of highly skilled warriors that arose in Japan after the Taika reforms of A.D. 646, which included land redistribution and heavy new taxes meant to support an elaborate Chinese-style empire. The reforms forced many small farmers to sell their land and work as tenant farmers.

Japanese swords (samurai sword) are the weapons that have come to be synonymous with the samurai. Ancient Japanese swords from the Nara period featured a straight blade, by the late 900s curved tachi appeared, followed by the uchigatana and ultimately the katana. Smaller commonly known companion swords are the wakizashi and the tantō.

The history of the samurai (侍) is a story as long as the history of Japan in many respects, and that on its own would take a full website and perhaps several books to cover. In this section of the website though I'll take you through the key points in Japanese martial history and how these events shaped and changed the samurai.
