Marriageology: The Art and Science of Staying Together ...

The Art and Science of Training presents the science for learning and development, but it also emphasizes that training success lies in knowing what to do when things don't go as planned. Discover how top facilitators always put learners first, even when faced with exceptions to the rule—the unwilling learner, the uninformed supervisor, the inappropriate delivery medium, or the unmanageable performance challenge.

The three overarching categories in The New Art and Science of Teaching are a shift from the first edition, in that the original was what the teacher must do, while this new edition draws from what must happen in students' minds in order to be successful learners. This shift reflects the changing attitudes in education and the influence of growth mindset."
